

## ELECTRICAL HYDRO TEST PUMP

### Product Profile:

- Electric operated hydro test pump ideally used for exact and quick compression testing & leak testing on pipe work systems and containers in heating and sanitary installations, and in boiler and vessel manufacturing available up to 50 bars.

### Product Specifications

<b>Model No.</b>	<b>EPUMP50</b>
Maximum Pressure	50bar, 580psi, 5mpa
Input Voltage	110V / 220V, 50/60 Hz, 1P
Power	1600 W
Rotating Speed Flow Rate	10 L/Min.
Outlet Connection	1/2"
Testing Fluid	Water, Oil
Weight	24kg
Dimension (L*B*H)	365*300*300 MM
